

COVID-19 HYGIENE POLICY

Keeping you COVID-Safe

Brain Train endeavour to keep you and your family COVID-Safe during your child's therapy sessions with us.

- Hospital grade air purifiers are now installed in our gyms. It is designed to remove all viruses (including COVID-19) and microorganisms from the air, with 99.97% effectiveness.

- We have decreased the maximum occupancy and are spacing out appointments when possible.

- Our sickness policies for clients and staff have been updated with more stringent guidelines.

- Our staff will be screening clients and parents/carers prior to each session. If any of the published potential COVID symptoms are observed in any members of your group, we will not be able to complete the session that day.

- The frequency of all cleaning has been increased with special attention to the high-risk surfaces as directed by the Government's 'Environmental cleaning and disinfection principles for COVID-19'.

During your session

- All therapy spaces and equipment are sanitised frequently throughout the day, and hand sanitiser is available throughout the Brain Train premises.

- Compulsory temperature testing upon entry to premises, including all staff. We are encouraging parents/carers to refrain from entering the centre unless necessary and our therapists will collect clients from outside the front entrance at the session start time.

- Clients are assisted with washing their hands for 20 seconds with soap prior to the session commencing.

- There will be designated training areas in the gym and each trainer will work with one client only for that session and ensure that 'team' maintains distance from other therapists and clients.

In addition to this, we take additional COVID-Safe measures to keep you and our teams safe

We wear both Masks and Eye Protection for each of our Therapy Sessions

We have Hospital Grade Air Purifiers that are now installed in all our gyms.

We have decreased the maximum occupancy and are spacing our appointments when possible.
